Objective (100 words)	The objective of this Boot Camp was to understand users, challenge assumptions, redefine problems and create innovative solutions to prototype and test. It also aims at the development, evaluation and implementation of advanced materials and technologies to improve durability, extend service life and reduce maintenance needs and cost of transportation infrastructure.		

Benefit in-terms of learning/skill/knowledge obtained	The students were able to view a problem from different perspective and to determine its root cause. The boot camp encourages innovative thinking and creative problem solving among students. It also gives an experience that is more effective and informative for learners to expand their knowledge in design thinking.
