13. Objective of the Programme:

Create a vibrant and sustainable ecosystem that encourages innovation and entrepreneurship among school students, providing them with the tools, resources, and support needed to develop creative solutions to real-world problems. Develop a structured framework that connects students with experienced mentors from HEIs, industries, and innovation councils, offering personalized guidance, feedback, and support to nurture their ideas and innovations.

14. Key Outcome of the activity

The key outcome of Increased exposure of students to cutting-edge technologies and innovation methodologies through hands-on activities in ATLS, fostering technical skills and confidence in young innovators. Early identification and nurturing of potential student-led startups and innovations, providing them with the necessary support and resources to grow from the school level to higher education and beyond.
